

ABCare Clínicas Services

Basic Check up

Our medical exam program is a comprehensive program that includes multiple studies for assessing your overall health, using state-of-the-art equipment. This allows for the early diagnosis of diseases or conditions that may affect your health in the long-term.

Find out the state of your overall health with this basic package that includes 18 studies:

Radiology

- Chest x-ray.

General Medical Check Up

- Electrocardiogram (ECG) at rest.
- Somatometry (measurement of weight, height, vital signs, oxygen saturation).
- Measurement of body composition through bio-impedance analysis.
- Internal medicine check-up (two consultations).
- Nutritional assessment.

Laboratory

- Uric acid.
- Hematic biometry.
- Total cholesterol.
- Triglycerides.
- Creatinine.
- Glucose.
- Group/HR.
- Urea nitrogen.
- General urine test.
- Single-sample stool test.
- Prostate-specific antigen (men only).
- Pap smear (women only).
