

Dear patient,

Due to the Covid-19 pandemic emergency, we have modified the content of this check up to eliminate two tests that are not advisable to perform at this time due to medical recommendations: spirometry (discounted from the package price) and stress test (replaced by Calcium Score).

However, we have included the option of adding a PCR-SARS-CoV-2 test (to detect Coronavirus) if you are interested and it is considered convenient by medical recommendation.

Contemporary Check up

Includes:

1. Medical Assessment

- Examination by an internal medicine physician (medical history and physical exam).
- Eye exam.
